MARTEAU & CO

CONDITION REPORT

The following describes the condition of the watch below, as it was when the watch was included in the catalogue: The Blueprint

Lot 1

H. Moser & Cie Gold Pocket Watch

Condition : Offered in exceptional overall condition given its age, this rare 18k chronometer pocket watch shows only superficial signs of use. The grand feu enamel dial is in excellent condition, and shows no signs of tarnishing or weakness in the material. The hands are also free from any signs of imperfections and have been well preserved. The buttons to open the pocketwatch, and set the time, are working very well. All hallmarks are very crisp and well defined. The movement and its functions are in excellent condition and running at time of cataloging.

Condition of the box: The wooden box is exceptionally well preserved, as is the elegant mother-of-pearl inlay that adorns it.

The condition and relative wear of the watch are faithfully represented in the photographs provided. We invite interested collectors to reach out to info@marteauandco.com with any questions or to request further images.
